

# **DevOpsDays Seattle 2022**

## **Sponsor Prospectus**

**July 19<sup>th</sup> and 20<sup>th</sup>, 2022**

# About the Event

In 2009 the term DevOps was created by the founders of DevOpsDays. If you want to reach DevOps practitioners, this is the place to do it.

The event is volunteer run and not-for-profit, so it's inexpensive both to sponsor and to attend. This means we're able to attract people who are not willing or able to pay for expensive commercial conferences.

DevOpsDays also uses a unique combination of curated content and attendee driven "open spaces" to ensure everyone has an opportunity to learn or teach about the subjects most important to them.

# Demographics and Interactions

In previous years we expected about 500 in-person attendees each year over 2 days of events.

DevOpsDays events tend to attract practitioners as opposed to senior management. The best way to interact with attendees at any DevOpsDays event is to engage with them at the practitioner level and we encourage folks to attend and participate in the discussions.

Scheduled: July 19<sup>th</sup> and 20<sup>th</sup>, 2022

# Venue

The Conference Center at WSCC

<http://www.wsccl.com/venues/conference-center>

We will be returning to The Conference Center at WSCC for 2022. We've received feedback that this is one of the best layouts for attendee interactions sponsors have ever had.
